Environmental Policy Statement

At The Lime Centre, we recognize the importance of environmental stewardship and are committed to minimising our impact on the environment. We strive to integrate sustainable practices into our daily operations and promote environmental responsibility throughout our business.

1. Policy overview and aims

1.1 The Lime Centre is a lime product supplier and technical support provider. The Lime Centre acknowledges and understands its impact on the environment and recognises its need to mitigate this impact.
1.2 Our aims are as follows:
1.2.1 To adhere to legal requirements with regards to protection of the environment (including but not limited to The Environmental Protection Act [1990], The Hazardous Waste Regulations [2005], Producer Responsibility Obligations (Packing Waste) Regulations [2007], The Waste Regulations [2011]).
1.2.2 To continually reduce our business's environmental impact through organised and forward-looking decision making.
1.2.3 To operate responsibly with respect to the environment.

2. Resource efficiency

2.1 The Lime Centre uses resources efficiently to reduce waste and minimise its environmental footprint. This includes the use of electricity, fuel, water and raw materials.
2.2 The Lime Centre seeks to source materials and products that have a lower environmental impact, taking into consideration factors such as sustainability, recyclability, and energy efficiency.

3. Waste management and recycling

3.1 The Lime Centre implements effective waste management practices, aiming to reduce material use, and reuse and recycle materials wherever possible.
3.2 Hazardous waste will be handled and disposed of in accordance with legal requirements to prevent contamination of the environment.

4. Pollution prevention

4.1 The Lime Centre takes measures to prevent pollution and emissions, minimising the impact of our business on the air, water and soil.
4.1.1 We maintain equipment to ensure their efficient operation with minimal environmental footprint.
4.1.2 We encourage employees to take measures to reduce their personal environmental impact, such as walking or cycling to work where possible.

5. Sustainable building practices

5.1 The Lime Centre takes pride in promoting the use of sustainable building materials and practices to our customers and partners, encouraging environmentally friendly construction methods.

5.2 We make an active effort to stay informed about new innovations, sustainable technologies and practices in the building industry.

6. Communication

6.1 Our employees are informed of our environmental policy and made aware of the environmental responsibilities of their role. They are informed of any revisions to this policy should changes be made.

At The Lime Centre, we are dedicated to being a responsible supplier by integrating sustainable practices into our business. We believe that through abiding to important environmental ethical principles, we can contribute to a healthier, more sustainable environment for future generations. This policy is reviewed regularly to ensure its relevance and effectiveness.
